Workshop and conference announcements

43ACC December 2021

Due to COVID travel restrictions, the organising committee has decided to make the 43rd Australasian Combinatorics Conference (43ACC) a completely online conference. Postponed from last December, it will be held 13–17 December 2021. It is the next conference of the Combinatorial Mathematics Society of Australasia, in the otherwise annual series formerly referred to as the Australasian Conference on Combinatorial Mathematics and Combinatorial Computing (ACCMCC). An historical list is available here.

The conference programme will include invited talks, contributed talks in parallel sessions, a presentation of the CMSA Anne Penfold Street Student Prize for the best student talk at the conference, and the CMSA Annual General Meeting. Researchers in any area of discrete mathematics and its applications are warmly invited to attend and contribute a talk.

Early bird registration closes on 31 October 2021.
Late registration and abstract submission close on 21 November 2021.

Invited speakers:

* Julia Böttcher, London School of Economics and Political Science, UK
* Vida Dujmović, University of Ottawa, Canada
* Rongquan Feng, Peking University, China
* Michael Giudici, The University of Western Australia
* Mikhail Isaev, Monash University, Australia
* Daniel Král', Masaryk University, Czech Republic
* Bojan Mohar, Simon Fraser University, Canada

CMSA Seminars

This virtual seminar series is organised by Anita Liebenau (UNSW) and Nina Kamčev (Monash University). It is delivered roughly every two weeks via Zoom. Information on past and future seminars can be obtained [here](#).

Postdoctoral Positions

The IBS Discrete Mathematics Group (DIMAG) in Daejeon, Korea, invites applications for two postdoctoral research fellowship positions in discrete mathematics with emphasis on structural graph theory, extremal graph theory, combinatorial optimization, matroid theory, or fixed-parameter tractable algorithms. Applications close 5 December 2021. More details [here](#).

The Australasian Journal of Combinatorics

AJC is a 'diamond open access' journal: online and free for readers and authors. There are three volumes per year, closing respectively in February, June and October, matching the time of publication of the old paper volumes. Volumes are currently being uploaded in three parts. [Volume 81, Parts 1 and 2](#) are now available.

The contents of all published volumes are listed at the AJC [web page](#).

Visit [here](#) to register for email notices whenever new papers are published.

Submissions to the Australasian Journal of Combinatorics may be sent to [ajc@maths.uq.edu.au](#). Only pdf files are required at submission stage.

The Journal is now indexed by Scopus from Volume 13 (1996) onwards, and by Clarivate Analytics 'Emerging Sources Citation Index' from 2015 on.

ISSN: 2202-3518 (online only, after 2013); 1034-4942 (paper, before 2014).
