

CMSA E-Newsletter 31

From Combinatorics Wiki

Contents

- **1 Introduction**
- **2 Aims of the newsletter**
- **3 Future workshop and conference announcements**
 - 3.1 ATCAGC 2010 Workshop
 - 3.1.1 Provisional list of participants
 - 3.1.2 Contact
 - 3.1.3 Organisers
 - 3.2 Hadamard Maximal Determinant Problem Workshop at ANU
 - 3.2.1 Contact
 - 3.3 Special Session on Interconnection Networks - AMS sectional meeting
 - 3.3.1 Contact
 - 3.4 The ICRTGC-2010 Conference
 - 3.4.1 Scientific Committee
 - 3.4.2 Contact
 - 3.5 A few useful conference webpages and a few upcoming conferences:
- **4 News and important announcements**
 - 4.1 News Items
 - 4.1.1 New Centre for the Mathematics of Symmetry and Computation
 - 4.1.2 The AMSI 2010 Australian Graduate Theme Program in Mathematical Sciences
 - 4.1.3 University of Melbourne seminar series
 - 4.2 Employment opportunities
- **5 Recent news of CMSA members and others**
 - 5.1 Cheryl Praeger is named 2009 Scientist of the Year
 - 5.2 Prabhu Manyem has accepted a 3-year professor position at Shanghai University
 - 5.3 Sanming Zhou was promoted to Associate Professor
 - 5.4 Rebecca Robinson has completed her PhD
- **6 The Australasian Journal of Combinatorics**
- **7 Editor**

Introduction

Thanks to all CMSA members who have sent information for this newsletter. Please send news as soon as you have anything of possible interest to CMSA members and the Combinatorial Community, even if no newsletter is imminent! Please email the Newsletter Editor (Eyal Loz) at: [eyal at eyal.com.au](mailto:eyal@eyal.com.au)

CLOSING DATE for Issue 32: May 15, 2010. (Please email items to the newsletter editor ONLY in plain text.)

Old newsletters can be found here.

Aims of the newsletter

- To promote combinatorics within Australasia.
- To provide a forum for sharing combinatorial and related information.
- To keep CMSA members informed and in touch with combinatorial and related matters.

Future workshop and conference announcements

ATCAGC 2010 Workshop

The ATCAGC 2010 workshop will take place in Auckland, New Zealand, 15-19 February 2010

The 2nd workshop on Algebraic, Topological and Complexity Aspects of Graph Covers will be held at the University of Auckland, the week 15-19 February 2010.

This research workshop will focus on graph coverings and their applications in different areas of mathematics such as algebraic graph theory, models of computation, and computational complexity. Its aim is to bring together researchers working on these diverse ends of graph coverings, to introduce their approaches and results to one another, and to foster joint research in and between these fields. To achieve this we plan to have a small number of survey talks, several open problem sessions, and ample time for discussions and problem-solving.

Provisional list of participants

- Milagros Izquierdo Barrios (Linkoping, Sweden)
- Marston Conder (Auckland, New Zealand)
- Mike Fellows (Newcastle, Australia)
- Jiri Fiala (Prague, Czech Republic)
- Robert Jajcay (Indiana, USA)
- Gareth Jones (Southampton, UK)
- Jan Kratochvil (Prague, Czech Republic)
- Caiheng Li (Perth, Australia)
- Aleksander Malnic (Ljubljana, Slovenia)
- Roman Nedela (Banska Bystrica, Slovak Republic)
- Jarik Nesetril (Prague, Czech Republic)
- Primoz Potocnik (Ljubljana, Slovenia)
- Egon Schulte (Boston, USA)
- Jozef Siran (Open University, UK)
- Martin Skoviera (Bratislava, Slovak Republic)
- Marek Tesar (Prague, Czech Republic)

This is the second workshop in ATCAGC series; the first was held in February 2009 in Finse, Norway.

Contact

See <http://www.math.auckland.ac.nz/ATCAGC2010.html> (<http://www.math.auckland.ac.nz/ATCAGC2010.html>) for more details including venue, accommodation and registration. All CMSA members are welcome to ask for an invitation. There will be no registration fee for accepted participants.

Organisers

- Marston Conder, University of Auckland, New Zealand
- Jan Kratochvil, Charles University, Prague
- Jozef Siran, Slovak University of Technology, Bratislava

Hadamard Maximal Determinant Problem Workshop at ANU

Dr Judy-anne Osborn and Professor Richard Brent will be organizing a small workshop on the Hadamard Maximal Determinant Problem at Australia National University in mid May, to coincide with the visit of Dr Will Orrick (Indiana University, Bloomington) and Dr Paul Zimmermann (INRIA, Nancy).

Talks will take place on Saturday the 15th of May.

Contact

For further information, please email Judy-anne.Osborn at anu.edu.au

Special Session on Interconnection Networks - AMS sectional meeting

A special session on Interconnection Networks at the Spring Eastern AMS sectional meeting will be held at the New Jersey Institute of Technology (Newark, NJ) on May 22-23, 2010.

The title of the session is "Recent trends in Cayley graphs to model interconnection networks".

At that session the organisers plan to gather a mix of researchers in the areas of algebraic graph theory and interconnection networks. The organisers' goal is to discuss some of the exciting work that remains to be done to fully utilize group theoretic methods in the design of interconnection networks.

Contact

For more details contact:

- Daniela Ferrero, Department of Mathematics, Texas State University: dferrero@txstate.edu
- Beth Novick, Department of Mathematical Sciences, Clemson University: nbeth@clemson.edu

The ICRTGC-2010 Conference

International Conference on Recent Trends in Graph theory and Combinatorics , ICRTGC-2010 (<http://icrtgc2010.cusat.ac.in/>) 12-15, August 2010, Cochin, India.

This conference is a Satellite Conference of the International Congress of Mathematicians (<http://www.icm2010.org.in/>) to be held at Hyderabad, India from 19-27 August, 2010.

The academic programme will consist of plenary and invited talks by eminent researchers in the field of Graph theory, Combinatorics and related topics from all parts of the world , contributed presentations and mini symposia on specific themes such as Algebraic Graph Theory, Metric Graph Theory and Graph Products, Graph Labeling and Graph Operators.

Scientific Committee

- G.E. Andrews – USA
- S. Arumugam - India
- R.Balakrishnan – India
- R. B Bapat - India
- W. Goddard – USA
- M.C Golumbic - Israel
- G. Gutin – U.K
- P. Hell - Canada
- G. O. H. Katona - Hungary
- S. Klavzar - Slovenia
- J.Nesetril – Czech Republic
- S. B. Rao – India
- A. Raspaud - France
- A.Rosa - Canada
- S. S. Sane – India
- V.T. Sos - Hungary
- X. Zhu - Taiwan.

Contact

For more details, please contact Ambat Vijayakumar, Department of Mathematics, Cochin University of Science and Technology , Cochin-682 022, India.

A few useful conference webpages and a few upcoming conferences:

- DMANET (Discrete Maths Net) and the TheoryNT List have lots of conferences listed in Combinatorics and Theoretical Computer Science respectively.
- <http://www.combinatorics.org/Conferences/> (<http://www.combinatorics.org/Conferences/>)

- <http://www.maths.qmw.ac.uk/~pjc/bcc/conferences.html> (<http://www.maths.qmw.ac.uk/~pjc/bcc/conferences.html>)
- Upcoming conferences in Coding, Cryptography and Effective Algebra: <http://www-rocq.inria.fr/codes/Anne.Canteaut/annonces.html> (<http://www-rocq.inria.fr/codes/Anne.Canteaut/annonces.html>).
- Online version of the British Combinatorial Bulletin <http://www.essex.ac.uk/math/BCB/newsletters.htm> (<http://www.essex.ac.uk/math/BCB/newsletters.htm>).

News and important announcements

News Items

New Centre for the Mathematics of Symmetry and Computation

The new Centre for the Mathematics of Symmetry and Computation (CMSC) has been established at the University of Western Australia. The areas of Mathematics encompassed by the Centre are group theory, combinatorics and computation. The name of the Centre was chosen to appeal both to people at the core of the mathematical community and to those towards its edges and beyond. The synergy between symmetry and computation will provide a clear ongoing focus to the work at the Centre.

There are currently 12 staff associated with the centre, including the Director, **Professor Cheryl Praeger** and Deputy Director **Professor Cai Heng Li**. They will be joined by **Professor Akos Seress**, who will arrive later this year from Ohio State University to take up an ARC Australian Professorial Fellowship. The CMSC will actively develop relationships with Australian and international universities and organisations through established and new links. Members of the group already have active collaborations with researchers in Belgium, Canada, China, Germany, Hungary, Ireland, New Zealand, Portugal, Italy, Iran, Slovakia, Slovenia, China, UK and USA.

The AMSI 2010 Australian Graduate Theme Program in Mathematical Sciences

During July 5-16, 2010 two advanced courses are being offered at the University of Queensland on the theme of Graphs, Networks and Designs.

The courses are aimed at postgraduate students and researchers in mathematics and related disciplines and will be presented by distinguished researchers.

- "Symmetry in Graphs" will be presented by Prof Brian Alspach of the University of Newcastle.
- "Applications of Designs" will be presented by Prof Charles Colbourn of Arizona State University.

For more details visit <http://www.maths.uq.edu.au/AMSI-AGTP/> (<http://www.maths.uq.edu.au/AMSI-AGTP/>).

University of Melbourne seminar series

In 2009 **David Wood** and **Sanming Zhou** started up a new seminar series on "Discrete Structures and Algorithms" (DSA) (<http://www.ms.unimelb.edu.au/~woodd/seminar.html>) at the University of Melbourne.

Employment opportunities

- The Reykjavik Combinatorics Group (Applications by end of Feb 2010)
- Université Libre de Bruxelles (Starting October 2010)

Recent news of CMSA members and others

Cheryl Praeger is named 2009 Scientist of the Year

Cheryl Praeger, a life member of the CMSA, has been named 2009 Scientist of the Year at the 2009 Western Australian Science Awards.

For more information visit: <http://www.mediastatements.wa.gov.au/Pages/default.aspx?ItemId=132873>

Congratulations Cheryl!

Prabhu Manyem has accepted a 3-year professor position at Shanghai University

Prabhu Manyem has accepted a 3-year professor position at the Shanghai University's Mathematics department.

Prabhu joined the department's optimization group after moving out from the University of Ballarat.

Congratulations Prabhu!

Sanming Zhou was promoted to Associate Professor

Dr. Sanming Zhou was promoted to Associate Professor and Reader at the University of Melbourne, effective from January 1, 2010.

Congratulations Sanming!

Rebecca Robinson has completed her PhD

Rebecca Robinson has completed her PhD at Monash University. Her Thesis is titled: "Characterizations and algorithms for topological containment of wheel graphs". Rebecca was Supervised by A. Prof Graham Farr.

Congratulations Rebecca!

The Australasian Journal of Combinatorics

The web page for the Australasian Journal of Combinatorics is at <http://ajc.maths.uq.edu.au/> (<http://ajc.maths.uq.edu.au/>).

The Journal is published three times per year, in February, June and October. CMSA Members are entitled to a \$10 discount per volume.

There is a search facility for past authors and for keywords in the titles of papers. Instructions to authors are also available at this web site.

The contents of all volumes, 1 to 46, are listed at the above web page. We also now have free public access to the full papers in Volumes 1 to 34 inclusive. All but the last four years are available for free.

Submissions to the Australas. J. Combin. may be sent to ajc at [maths.uq.edu.au](mailto:ajc@maths.uq.edu.au). Electronic submissions are encouraged. For paper submissions, please check the web page.
